

Redwood Barn Nursery

1607 Fifth Street Davis, California

Deciduous fruit varieties

COMMON NAME	VARIETY	Comments
Apples	Braeburn Apple	Late season, crisp and tangy, similar to Granny Smith but richer flavor. Excellent keeper. Green with dark red blush. October-November harvest. Self-fruitful.
Apples	Fuji Apple	Sweet, crisp and flavorful, excellent keeper. Late September. Excellent pollinizer for other apple varieties. Self-fruitful.
Apples	Gala Apple	Dessert apple: crisp, sweet, tart; rich flavor. Skin reddish-orange over yellow. Mid - late August. Good pollinizer for other varieties. Self-fruitful.
Apples	Granny Smith Apple	Bright green skin, tart/sweet flavor, great texture. For eating, cooking, sauce. October - November harvest.
Apples	Gravenstein Apple	The applesauce apple, also great for cooking. Fine for fresh eating if picked a little underripe. Late July - August harvest. Sets larger crops if another type of apple is nearby.
Apples	Red Fuji Apple	Very popular redder-skinned version of Fuji. Firm, sweet, juicy. Keeps well. Late September.
Apples	Red Gravenstein Apple	Red variant of the applesauce apple, also great for cooking. Fine for fresh eating if picked a little underripe. Late July - August harvest. Sets larger crops if another type of apple is nearby.
Apricots	Blenheim (Royal) Apricot	The standard, with delicious juicy fruit. Very early in this area--late May - June.
Apricots	Harcot Apricot	Excellent flavor and quality. Large, sweet, juicy, rich flavor. Brown rot resistant. Mid-June.
Berries--Blackberry	Boysen, thornless	Very large fruit, very productive. Reddish-black fruit. Sweet and tart all-purpose berries. Midseason.
Berries--Blackberry	Chester, thornless	Large fruit, good flavor, sweet, firm. Blackberry class. Late producer extends season into July.
Berries--Blackberry	Dirksen, thornless	Large black fruit, very sweet. Early July.
Berries--Blackberry	Logan, thornless	Lighter red and tangier than Boysen, otherwise very similar. Excellent variety. June.
Berries--Blackberry	Marion Berry	Firm fruit holds its shape in cooking. Blackberry class. Rich flavor. June.
Berries--Blackberry	Olallie Berry	Black, shiny berries with wild blackberry flavor. Very productive. Blackberry class. Late May.
Berries--Blackberry	Tayberry Berry	Blackberry/raspberry hybrid, with flavors of both parents. Dark red/purple fruit. June.
Berries--Blackberry	Young, thornless Berry	Similar to Boysenberries but somewhat sweeter. Midseason.
Berries--Raspberry	Heritage Berry	A reliable, moderately heat-tolerant variety of red raspberry. Everbearing (each cane produces a fall crop in first year, early summer crop in second year).
Berries--Strawberry		Day-neutral (summer-fruiting) varieties include Fern, Ft. Laramie, Hecker, Ozark Beauty, Selva. Spring fruited include Chandler, Sequoia (best flavor!)
Cherries	Bada Bing Cherry	Self-fruitful version of the commercial sweet cherry. Late May - early June harvest.
Cherries	Bing Cherry	The commercial sweet cherry. Late May - early June harvest. Pollenized by Black Tartarian, Van, Rainier (also Stella in colder climates, but not reliably here.) Fruit splits ('cracks') from late rains; Van doesn't.
Cherries	Black Tartarian Cherry	Old favorite with purplish-black fruit, very rich flavor. Needs pollinizer. Early to late May.
Cherries	Lapins Cherry	Large dark red, firm, sweet fruit like Bing. Self-fertile Bing. Resists cracking. Early to mid June.
Cherries	Rainier Cherry	Yellow with red blush. Very sweet, fine texture, very firm. Resists cracking. Pollenizer needed. Late May to early June.
Cherries	Royal Ann Cherry	Old favorite white cherry. Cream with red blush. Sweet, firm. Pollenizer needed (not Bing). Late May to mid June.
Cherries	Stella Cherry	Dark red, firm, sweet, like Lambert. Resists cracking. Early to mid-June.
Cherries	Van Cherry	Deep red, great quality and heavy production. Like Bing but resists cracking. Pollenizer needed (any other cherry). Early to mid June.
Cherries, Pie	English Morello Pie Cherry	Bright red, pretty fruit on a very productive, ornamental little tree. Rich flavor. Self fruitful. Blood-red juice, red flesh, bright red skin, very tart pie cherry. Late June, early July.
Cherries, Pie	Montmorency Pie Cherry	Bright red, pretty fruit on a very productive, ornamental little tree. Rich flavor. Self fruitful. Clear juice, white flesh, bright red skin, less acidic pie cherry. Mid to late June.
Crabapple, fruiting/flowering	Transcendent Crabapple	Fragrant white blossoms; small tree. High quality, pretty bright yellow to red fruit which ripens in August. Pollenizes regular apples. Fruit eaten fresh, preserved, or for jam.
Figs	Black Mission Fig	Purplish-black skin, pink flesh, rich flavor. Heavy bearing large tree with 2 - 3 crops per year. Fresh or dry.
Figs	Blackjack Fig	Natural dwarf tree, easily kept under 10'. Fruit like Black Mission. 2 - 3 crops per year.
Figs	Brown Turkey Fig	Brown skin, pink flesh. Sweet, rich flavor, used fresh. 2 - 3 crops per year. Widely adapted. Small tree.
Figs	Conadria Fig	White fig with extra sweet flavor. Light greenish-yellow skin, pink flesh. Fresh or dried. Very vigorous, long-lived tree. 2 - 3 crops per year.
Figs	Kadota Fig	Greenish white, very sweet. Huge tree.
Grapes, table	Autumn Seedless Grape	Late-ripening variant of Thompson Seedless released by the USDA. Ripens late August - September.
Grapes, table	Black Monukka Grape	Seedless black table grape, very sweet with crisp texture. August - September.

Grapes, table	Eastern Concord Seedless Grape	Blue black seedless grapes with strong, rich flavor. Popular for juice, jelly. Attractive foliage; nice for arbors. August - September.
Grapes, table	Fantasy Grape	Large black seedless grapes with outstanding flavor and texture. Early August. Very vigorous vine with attractive foliage.
Grapes, table	Flame Seedless Grape	VERY vigorous, productive red seedless grape with good flavor and texture. Ripens August - September
Grapes, table	Niabell Grape	Large blue black grapes like Concord. Very pretty foliage; great for arbors. August.
Grapes, table	Summer Royal Grape	Seedless black table grape. Late August.
Grapes, table	Thompson Seedless Grape	The seedless grape everyone knows. Easy to grow. Thin the clusters for larger fruit. Early August.
Grapes, wine	Cabernet Sauvignon Grape	Distinctive aroma, somewhat tannic. One of the grapes used in Bordeaux, and one of the most commonly grown wine grapes in the world.
Grapes, wine	Merlot Grape	Large clusters of soft, juicy grapes. Ripen early. Higher sugar content than Cabernet, lower than Zinfandel. Medium body. Often used for blending in Bordeaux-style wines.
Grapes, wine	Pinot Chardonnay Grape	One of the many synonyms of Chardonnay. In hot climates, Chardonnay produces strong, rich-flavored grapes with lots of sugar.
Grapes, wine	Shiraz Grape	AKA Syrah (but not the same as Petite Sirah!). Generally a very strong-flavored but less tannic red wine grape. Often used for blending.
Grapes, wine	Zinfandel Grape	Planted in California since the 1850's. Very high sugar content, suitable for fresh eating or to dry as raisins.
Jujube	Li Jujube (Chinese Date)	Pretty little tree with shiny foliage. Very tough, easy to grow. Produces loads of fruit that look like little elongated brown apples. Sweet as dates when dried. Fall ripening.
Mulberries	Persian Mulberry	Fruit like juicy blackberries. Harvest in early summer for over a month. Birds love them.
Mulberries	Teas Weeping Mulberry	Sweet, juicy fruit in early summer. Birds love them. Tree makes a striking accent, or playhouse for young kids.
Nectarines	Arctic Fantasy Nectarine	Great new white-flesh nectarine. Large rich-flavored red fruit. Early August.
Nectarines	Double Delight Nectarine	Beautiful flowers, excellent fruit on this attractive landscape tree. Mid-July.
Nectarines	Fantasia Nectarine	Bright red skin, firm fleshed fruit. One of the best. Mid - late July.
Nectarines	Flavortop Nectarine	Excellent fruit, firm texture; showy flowers. Early to Mid-July.
Nectarines	Goldmine Nectarine	Large, attractive juicy fruit with white flesh and rich, sweet flavor. Early August.
Nectarines	Heavenly White Nectarine	Outstanding flavor and texture; one of the best summer fruits of all. But fruit is unattractive, and supply is limited. July.
Nectarines	Independence Nectarine	Bright red skin, firm flesh, excellent flavor. One of the best. Late June.
Nectarines	Snow Queen Nectarine	Sweet, juicy white fruit. Late June
Peaches	Arctic Supreme Peach	Astounding white peach. Rich flavor, firm texture (unlike most white peaches). Cling, not freestone.
Peaches	Bonanza Miniature Peach	Miniature peach with beautiful pink flowers and good fruit. Great in containers or as small accent in vegetable or herb garden. Late June.
Peaches	Champagne Peach	Medium-large light red fruit with white flesh. Melting texture. Good balance of sweet and tangy flavor. A gourmet peach! Mid-August.
Peaches	Donut Peach	(aka Stark Saturn). Flattened fruit with firm texture and unique sweet flavor like almonds. Late June - early July.
Peaches	Earligrande Peach	Very early variety. Firm flesh, good flavor and texture. Heavy producer. Ripens in May!
Peaches	Early Elberta Peach	(aka Kim and July Elberta). Elbertas have yellow skin tinged with red. Very rich, distinctive flavor. Good all-purpose peaches; the ones you grew up with. Early July.
Peaches	Fantastic Elberta Peach	Beautiful flowers and heavy production of outstanding Elberta peaches on this dual-purpose landscape tree. One of the best. Good all-purpose peach.
Peaches	Fay (Late) Elberta Peach	(aka Late Elberta) Heavy production of outstanding Elberta peaches on this late variant. Very rich, distinctive flavor; good all-purpose peach. Early August.
Peaches	Feicheng Tao Peach	White peach similar to Babcock but more aromatic and firmer texture (keeps better). Ripens early July.
Peaches	Gleason Elberta Peach	(aka Improved Elberta and Lemon Elberta) Another excellent variant of Elberta, ripens in early July.
Peaches	Gold Dust Peach	Excellent early peach with very good flavor and firm flesh. Excellent to plant with later varieties. Mid-June.
Peaches	Honey Babe Miniature Peach	The highest quality fruit on a miniature peach. Highly productive with good tasting fruit. Easy way to grow peaches in very limited space; nice accent in herb or vegetable garden. Mid-July.
Peaches	Indian Blood Peach	Old cling variety with extra-rich flavor. Flesh streaked with red. Late August, holds into September.
Peaches	J.H. Hale	Very large fruit, extra rich flavor, little fuzz. Firm flesh keeps well. Needs a pollinizer (any other peach will do). Early August.
Peaches	June Gold Cling Peach	Large fruit with rich flavor, melting texture. Prolific. Late May to early June.
Peaches	Loring Peach	Showy flowers, large fruit, very productive, great texture, top-rated flavor! Highly recommended! Mid-July.
Peaches	O Henry Peach	Large showy flowers. Very productive, firm texture, very good quality fruit. Excellent all-purpose peach. Late August.
Peaches	Red Baron Peach	Stunning double red blooms--the showiest of all. Wonderful landscape tree. Very good sweet, juicy fruit. Mid-July to early August.
Peaches	Redhaven Peach	Very good early variety. Large fruit with firm texture, good sweet flavor. Well-known commercial variety. Late June.
Peaches	Rio Oso Gem Peach	Very large fruit with firm texture and excellent flavor, on a naturally small tree. One of the best late variety. Mid-August.

Peaches	Summerset Peach	Late season yellow freestone. Large, sweet and flavorful. Good all-purpose fruit. Ripens early Sept.
Peaches	Suncrest Peach	Rich flavored commercial variety featured in the book Epitaph For a Peach, by David Mas Masumoto. Supply is limited. Mid-July.
Pears, Asian	20th Century Pear (Asian)	(aka Nijisseiki, "Apple Pear") Earliest variety. Juicy fruit with pleasant flavor. Self-fruitful. Late July - mid-August.
Pears, Asian	Hosui Pear (Asian)	Medium-large golden fruit with juicy sweet flavor and good texture. Very popular! Early - late August.
Pears, Asian	Shinko Pear (Asian)	Medium - large brownish fruit. Very rich, sweet with good texture. One of the best. August - mid-September.
Pears, Asian	Shinseiki Pear (Asian)	Medium size yellow, juicy fruit with mild flavor. Self-fruitful. Late July - mid-August.
Pears, European	Moonglow Pear (European)	Large brownish fruit like Bartlett. Soft flesh, little grit. Very fireblight resistant. Early August.
Persimmons	Chocolate Persimmon	Medium size elongated fruit. Orange skin, brown flesh is very sweet and tasty. Non-astringent. Late October - early November.
Persimmons	Fuyu Persimmon	Medium size flattened red-orange fruit can be eaten while still firm. Non-astringent. November. A mature Fuyu can produce 500 or more fruit! Jiro is the form of Fuyu most common in California; Imoto is the form most common in Japan.
Persimmons	Giant Fuyu Persimmon	Large flattened red-orange fruit can be eaten while still firm. Non-astringent. November.
Persimmons	Hachiya Persimmon	Very large oblong red-orange fruit (has a short point) with very rich flavor. The best for cooking. Astringent until fully ripe; must be squishy soft before you can eat it. December.
Plums	Casselman Plum	Red skin with yellow-to-red flesh. Natural variation of Santa Rosa. Self-fruitful. Late June.
Plums	Emerald Beaut Plum	Taste test winner! Greenish-yellow skin and flesh. Firm flesh gets sweeter but stays crisp as fruit ripens. Long harvest--late August through September. Pollenize with Nubiana or Late Santa Rosa plums, or Flavor King Pluot.
Plums	French Plum (Prune)	Large fruit with dark blue skin. Tender, great texture, very sweet. One of the commercial prune varieties. Self-fruitful. August.
Plums	Green Gage Plum	Greenish-yellow fruit, very sweet and juicy. Self-fruitful. July.
Plums	Italian Plum (Prune)	Large fruit with dark purple skin. A commercial prune variety with excellent sweet flavor. August - mid-September.
Plums	Nubiana Plum	Large dark purple plum with sweet, firm amber flesh. Holds well on tree for 2 - 3 weeks. Self-fruitful. Mid - late July.
Plums	Santa Rosa Plum	Purplish tart skin, yellow-to-red sweet flesh. Very popular and productive. Self-fruitful and good pollinizer for other plums, pluots. Mid-June.
Plums	Satsuma Plum	Red plum, firm dark red juicy flesh, rich flavor. Excellent. Needs pollinizer.
Pluots	Dapple Dandy Pluot	Taste test winner! Mottled red and yellowish fruit with tangy sweet plum-apricot flavor. Outstanding! Pollenize with Flavor Supreme, or Santa Rosa plum. August.
Pluots	Flavor King Pluot	Taste test winner! Red-purple fruit, red flesh. Small tree. Very sweet. Pollenize with Flavor Supreme, or Santa Rosa plum. Mid-August.
Pluots	Flavor Queen Pluot	Greenish yellow fruit, extra sweet. Mid July-August. Pollenize with dapple dandy.
Pluots	Flavor Supreme Pluot	Taste test winner; one of the best summer fruits. Greenish fruit with red flesh. Sweet, rich, tangy, early. outstanding! Pollenize with Santa Rosa plum or any other pluot. June.
Pomegranates	Angel Red	New! Soft seeds -- no spitting! -- and the highest juice content of any pomegranate. Vivid red fruit ripens in September.
Pomegranates	Grenada Pomegranate	Natural variation of Wonderful. Deeper red blossoms, ripens a month earlier, a bit less tart. October.
Pomegranates	Sweet Pomegranate	Yellow flowers, pink fruit. Sweet, juicy, not tart. October - November.
Pomegranates	White	Very juicy, very sweet fruit is white inside and out! November.
Pomegranates	Wonderful Pomegranate	The standard large red-fruited variety. Showy orange-red flowers in May - June, high-quality fruit ripens in November. (Available in containers during growing season)
Quince	Orange Quince	Also called Apple Quince. Flesh is orange, tender, great for cooking. Some say this is tender enough to eat fresh.
Quince	Smyrna Quince	Huge quantities of lemon yellow fruit with rich perfume and wonderful flavor, used in cooking and preserves. September.
Rhubarb	Victoria Cherry	Seedling grown strain, green stalks with some red
